2. T
3. F
4. F
5. T

**TASK 7** (5 marks)

1. AR turns physical sites into a blank canvas for the creation of new content altering one's ongoing perception of a real-world environment and intensifying their experience.  
OR  
AR allows you to look at the environment around you through the lens of your smartphone and, via an app, reveal a new layer of information that appears to be located in the real world.

**2. ANY THREE:**

- AR offers them new possibilities of communicating their feelings or ideas
- It allows them to be creative
- It allows them to push boundaries
- It allows them to step out of their comfort zone

**TASK 8 (15 marks)**

Impact:

- Escalating droughts, flooding and rising temperatures cause water scarcity, compromise water and sanitation facilities making children vulnerable to diseases.
- Escalating droughts, flooding and rising temperatures degrade food production leading to hunger and malnutrition.
- Climate-driven migration disrupts children's lives and futures.

Solutions:

- Cut greenhouse gas emissions in order to harness, and eventually stop, the advance of climate change.
- Educate children to adapt to the immediate challenges of climate change and to understand the role they will be called on to play.
- Listen to the voices of children who will inherit the planet.
